CCE Delaware
- Fairbook pages with language re: exhibitor liability
- Delaware County not doing sows and litters; canceling pre-fair tagging and weigh-in

CCE Genesee

As far as Genesee County 4-H, we have decided to follow the NYS Ag & Mkt recommendations on PEDv. Thus,
1. 4-H Market Swine were weighed in and tagged by the youth at their “home” facility on April 6th. Specifics and the form are available upon request from the 4-H office.
2. Genesee County Fair- July 15- 20, 2014:
   a. There will not be any 4-H breed classes, just 4-H market swine. Thus all 4-H market swine brought to fair will be terminal.
   b. Throughout the project, 4-H youth continue to be advised to be monitoring their project animals weight closer than normal and make sure non finished animals are not brought to fair
   c. For biosecurity reasons, trucking to the processors will be done via a previously arranged, insured trucker.
In addition to sending the NYS Ag & Mkt recommendations on PEDv to our 4-H Swine Club members, we have also included them in our 2014 Genesee County 4-H Fairbook, Div. 1, Sect. D, available on our website at https://genesee4h.shutterfly.com/geneseecountyfair
