Or, see tear-off below to mail a check  
**Deadline:** January 24, 2020

Hands on classes for learning and using QuickBooks for farming operations. Save accounting and bookkeeping time (and money).

QuickBooks is the most used bookkeeping software for small businesses. We'll review:

- Basic accounting concepts and reports
- How to set up a chart of accounts to fit your operation
- Invoicing and cash receipts
- Recording and paying purchases and expenses
- Reconciling accounts
- Production and analysis of financial statements

All in a small group setting allowing plenty of time for interaction and questions.

Know how much money your business makes with clear reports and dashboards:

- Track details, expenses and income - all in one place
- See your profitability - clearly and quickly

Laptops with QuickBooks 2018 installed will be provided for training if you do not have your own (sorry, no Apple or Internet based QuickBooks).

***Space is limited, so register now. Payment required to reserve spot.***

SCORE is proud to present this workshop in conjunction with Cornell Cooperative Extension Madison County. For more information, contact CCE Herkimer County at 315-866-7920.

## QuickBooks for Farmers and Growers ~ Fridays: 1/31, 2/7, 2/14, 2/21/20
