AGRICULTURAL WORKFORCE DEVELOPMENT

Growing Great People: Training Skills for Dairy Farmers Become an Effective On-The-Job Trainer

Effective trainings contribute to success of employees and the farm business. With training employees learn how to effectively complete their task and why it is important to the farm. When employees have the knowledge, skills, and attitude needed to do the job right and understand why it should be done this way it:

- saves time and avoids problems
- makes people feel important and involved, which keeps them engaged and reduces employee turnover

Develop your training skills in this webinar training that includes a learning system of:

TELL: Describe the procedure and why it is important

SHOW: Demonstrate the procedure and emphasize key points

DO: Allow the learner to try and answer any questions

REVIEW: Are the steps in the procedure done correctly?

After the webinar training you will be able to:

1. Plan for organized and effective trainings
2. Train in a way that works for most people
3. Measure and follow up to make sure learning happened

These trainings are supported by a grant from the New York Farm Viability Institute.
