TOPICS INCLUDE:

Thursday, September 3rd 7pm - 8pm

Late Season Pasture Weed ID and Management

Learn to identify common pasture weeds, why they may be in your pasture, and how to manage them.

Thursday, September 10th 7pm - 8pm

Soil Sampling, Preparation, and Submission

Sampling soil is the key to understanding the nutrients available to our pasture species. Together we'll explore the steps of soil testing, including soil sampling techniques, sample preparation, and how to fill out a soil test submission form.

Thursday, September 17th 7pm - 8pm

Interpreting Your Soil Test Report and Adjusting Fertility

Here, we'll share how to interpret a soil test report, calculate calcium needs and fertilizer blends, review the nutrient values for commonly available manures, and discuss how and when to apply fertilizer or manure for optimal returns.
