South Central New York Dairy & Field Crops

Corn Silage Meeting & Bunk Mini Lab

When: September 5, 1-3 pm

Where: Aman's Dairy Farm, 56 Foote Crossing Rd, Candor, NY

Why: Great Silage Contributes to Profitability

Discussion on:

- Proper Harvest Window
- Staging of this year's crop
- Dry Matters & Milk Line
- Packing & Chop Length
- BMR vs Conventional varieties
- Safety & OSHA Discussion

Bunk Mini-Lab: Focus on assessing proper bunk management, pH and temperatures of silages and proper processing of silage

Participants are encouraged to come early and bring 3-4 stalks or your corn (label fields) to be chipped and dried down for dry matters.

FREE EVENT – RSVP's are requested for refreshments
