

2015 Central New York Dairy Day

Breeding, Raising and Managing Your Future Herd of Super Cows

When: Tuesday, March 10, 2015

Where: CCE Saratoga, 50 West High St, Ballston Spa
or

Magros Banquet Hall, 110 Sanitarium Rd, Sherburne

Cost: \$30 per person (includes lunch)

Program will start promptly with first speaker at time below.

2 locations to choose from!

Agenda for East (CCE Saratoga County)

9:45 am - Registration, coffee, pastry

10:00 am - **Dr. Curt Van Tassell, Research Geneticist, ARS, USDA** What is genomics and where is it taking us? Will we be able to continue to improve production while also improving a variety of health and reproduction efficiency traits?

10:45 am - **Dr. Curt Van Tassell, Research Geneticist, ARS, USDA** What does the future of genomics look like? What technologies are coming - and how will they impact producers?

11:15 am - **Caroline Potter, Coordinator, Pro Dairy, Dairy Acceleration Program** - What opportunities does this new round of Dairy Acceleration Program (DAP) funding provide for New York State Dairy Producers?

12:00 pm - Lunch

1:30 pm - **Dr. Julio Giordano DVM, Cornell Animal Science** What does it take to consistently get top reproductive results from our dairy herds today?

2:15 pm - **Dr. Mike Van Amburgh, Cornell Animal Science** Early calf growth and it's impact on milk production later in life. Is there a correlation between the calf's sex and her dam's production. Immunity impacts on the calf when the dam suffers heat stress.

3:00 pm - Adjourn

Agenda for West (Magros, Sherburne)

10:00 am - Registration, coffee, pastry

10:15 am - **Dr. Julio Giordano DVM, Cornell Animal Science** What does it take to consistently get top reproductive results from our dairy herds today?

11:00 am - **Dr. Mike Van Amburgh, Cornell Animal Science** Early calf growth and it's impact on milk production later in life. Is there a correlation between the calf's sex and her dam's production? Immunity impacts on the calf when the dam suffers heat stress.
