# Malting Barley Roundtable

Tuesday, March 24, 2015 11 AM to 2 PM

Tally-Ho Restaurant  
156 Main St (State Route 20)  
Richfield Springs

This roundtable discussion is for anyone planning on or thinking about growing malting barley this coming growing season as a chance to meet with others who are considering this crop.

In 2014 malting barley fields were monitored around the state last summer for disease and quality. The results of that monitoring program will provide the basis for the discussion. A similar monitoring program will be offered this year so if you are interested please plan to attend. We will also discuss the malting barley variety testing that has occurred to date.

Registration including lunch is free but please call 315-866-7920, or register online at <http://cnydfc.cce.cornell.edu/event.php?id=234> or email [herkimer@cornell.edu](mailto:herkimer@cornell.edu) by March 20 so we have an accurate count for lunch. Registration allows us to communicate any cancellations or changes in arrangements.

Funding for this roundtable and malting barley variety trials has been provided by the New York Farm Viability Institute.
