Forage Yield Monitor Field Days

Alfalfa Field Day

Monday, July 15th

10am-12pm

Gary Swede Farms

1054 Peoria Rd., Pavilion

Interested in purchasing a new forage harvester with yield monitoring capabilities, but don't know what the benefits are? Already own the equipment, but want to understand how to use the data? Attend one of these field days to get your questions answered!

Corn Silage Field Day

Thursday, August 22nd

10am-12pm

O'Hara Machinery

1289 Chamberlain Rd., Auburn

Program will include:

- Importance of yield monitoring
- Overview of harvester components involved in yield monitoring
- Information on calibration
- Farmer experiences
