

Intergrated Parasite Management
And FAMACHA
For Sheep and Goats

Saturday October 29th, 10:00 am – 3:00 pm

Extension Learning Farm, Canton, NY

\$35.00 per person,

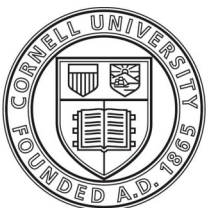

\$10.00 for additional from the same farm

Learn to manage your grazing to avoid building up parasite populations on your pastures, what the different types of worms are and what de-wormers to use in different situations. There will be hands on instruction in using a microscope to do Fecal Egg Counts and FAMACHA scoring sheep and goats for selective de-worming.

Students completing the program will receive a FAMACHA card to take home with them. The fee includes lunch and materials.

Pre-registration is required—by Thursday October 27th

To register contact Betsy Hodge at bmf9@cornell.edu or call 315-379-9192, Ext 237 for the admin assistant to sign up or Ext 227 for Betsy. You can pay at the door.
