'Tis the season for the annual Feed Dealer's Meeting for industry personnel and area producers. Dr. Tom Overton and Joe Lawrence will present some valuable insights into current nutrition and health topics.

These annual meetings provide an interchange of ideas that have been great over the years. ***This is your opportunity to bring critical issues or questions of importance in the industry to our attention.*** Your input is extremely valuable to us in helping both campus and local Extension efforts for the benefit of the dairy industry.

- ◆ Forage quality & digestibility - What we can/can't influence in the field
- ◆ Feeding strategies based upon forage quality & availability
- ◆ Cornell Corn Silage Hybrid Trials - A new look
- ◆ Agronomic & feeding strategies for winter forage crops
