

4th Annual Precision Agriculture Day

Genesee Community College

CALLING ALL 9th - 12th GRADERS! We have an exciting new program for students interested in technology, science, engineering and agriculture!

- Would you like to learn about how drones collect information?
- Check out some potential career opportunities that have new and ever-changing technology.
- Learn how these technologies can be used in our own backyard in Western New York.
- Discover potential and exciting career opportunities!

Station and Presenters:

Station 1: Electronic Troubleshooting
