

2020 Field Crop Pest Management Meetings

Come and discuss pest management and growing season issues that affected your crops in 2019 and look ahead to changes you might make for 2020.

Topics

- Spotted lanternfly update
- Using weather data for predicting crop growth and pest problems - updates on current tools
- Knowing your corn “worms” and what to do about them
- Alfalfa Weevil and Potato Leafhopper ID and Control
- Herbicide Resistance:
 - ◊ Crops where we want it - What crops are resistant to what herbicides
 - ◊ Weeds where we don't - What weeds in our area are resistant to what herbicides
- Buckthorn: an alternate host for soybean aphid and oat crown rust
