

Dairy Reproduction and A.I. Training Course

Attend this 2-day training course to become trained in dairy reproduction and artificial breeding techniques. There will be classroom sessions in the morning, followed by hands-on practice on farm in the afternoon. After this class you will be trained to artificially inseminate dairy cattle.

January 25 and 26, 2022

9:30am - 3:00pm

Beekmantown Town Hall (mornings)

Adirondack Farms, Peru, NY (afternoons)

Topics Covered:

- ◆ Bovine anatomy and reproductive physiology
- ◆ Heat detection
- ◆ Artificial insemination technique
- ◆ Proper thawing of semen
- ◆ Loading A.I. guns
- ◆ Practice breeding cows (hands-on)

Speaker:

Javier Cheang, Genex
