**Save the Date: Pre-Harvest Meetings scheduled for September 1st in Arkport and Springville.
More information coming soon!**

Help Us Welcome Our New Dairy Management Specialist – Camila Lage

We're so excited to introduce our team's newest addition, Camila Lage, as our regional Dairy Management Specialist. Camila can be reached by calling 607-422-6788 or emailing cd546@cornell.edu. [Click here to learn more](#) about her background and what she'll be working on.

Strategic Forage Storage Planning

From Cornell PRO-DAIRY, a great resource that covers considerations for forage storage including types and quantity of feed requires, mapping out storage needs, and the challenges of different storage systems.

How you Administer Injections Matters

Injections are a necessary part of livestock management. Not only is each formulated for a different part of the body, but they're also formulated to be injected into a specific layer of tissue (skin vs muscle vs vein). This article and graphic illustrate the proper angles for injection administration.

CCE Flock Talks: Internal and External Parasites of Poultry – Wednesday, August 25th, 7pm – 8pm

Join Dr. Jarra Jagne, veterinarian at Cornell's Avian Health Diagnostic Center in Ithaca, for a free webinar about common internal and external parasites of poultry. Dr. Jagne will speak to the biology of these parasites and how to manage them for a healthy, successful flock.
