7.7.2022 Updates from Cornell Cooperative Extension's SWNY Dairy, Livestock, and Field Crops Program

A partnership between [Cornell University](#) and the Cornell Cooperative Extension Associations in these five counties: [Allegany](#), [Cattaraugus](#), [Chautauqua](#), [Erie](#), and [Steuben](#).

Thank you Premier Select Sires/CowManager, Patrick Coates from Farm Credit East, and Cliff Love from Nutrien for sponsoring this Weekly Update.

Dicamba Cut-Off Date Reminder

June 30, 2022 marked the official cutoff date for the over the top use of XtendiMax, Engenia and Tavium on Xtend or XtendFlex traited soybean in New York. Now the question that will be asked by growers is "I've planted Xtend soybeans; now what are my options?". [Read more](#) to learn about your options.

Young Farmer's Coalition of WNY Ice Cream Social on July 19th, 6:30pm – 8:00pm in Java

The Young Farmer's Coalition of WNY is having an ice cream social and discussion circle at Healing Poem Farm (4598 RT-78, Java) where we'll talk about the barriers that many young and beginning farmers face to starting farms, including access to farmland, capital, training, and health care. All are invited. Please RSVP to yfc_wny@gmail.com

Providing Water to Calves at Birth - Liquid Feeds Serve a Different Purpose (PSU Extension)

It is widely assumed that newborn calves receive all required nutrients from milk or milk replacer. However, a new study has shown that early access to clean drinking water outside the milk provided can be the missing piece for rumen development and gut health for pre-weaned calves. [Learn more here.](#)

Robotic Milking System Farm Tour – Frontier Brook Farm – Next Tuesday (7/12) 11 am-1:00 pm.

Join CCE for a farm tour at Frontier Brook (Conewango Valley, NY) next Tuesday. Come tour the farm, enjoy lunch and socialize with other farmers while learning from each other. Register until Friday, 7/8/22, by contacting Camila Lage at 607-422-6788 or cd546@cornell.edu

Corn Leaf Diseases to Watch For in 2022

Depending on the spring weather and past experience, there are leaf diseases which might develop and dominate in July and August. [Click here](#) to learn about which diseases you should watch for in your corn crop.

Final Dairy Farm Business Summary and Analysis Program Progress Report 2021

From Lauren Augello with PRO-DAIRY: Labor efficiency improved in 2021, with a 2.3 percent increase in cows per worker and a 4.9 percent increase in pounds of milk sold per worker. For more

information, or to participate in DFBS, contact Katelyn Walley-Stoll.

Thank you Premier Select Sires/CowManager, Patrick Coates from Farm Credit East, and Cliff Love from Nutrien for sponsoring this Weekly Update.

You are receiving this email because you have enrolled/subscribed to the SWNY Dairy, Livestock, and Field Crops Program through your local county extension office or through our contact form. To discontinue receiving updates from our program, simply reply to this email with “stop”. If you have any questions, please reach out. If you know of someone who would benefit from our team’s resources or is interested in learning more, please share the online contact form available at: https://cornell.qualtrics.com/jfe/form/SV_eVG2c8y0BtXaRgx
