04.20.2023 Updates from Cornell Cooperative Extension's SWNY Dairy, Livestock, and Field Crops Program

A partnership between [Cornell University](#) and the Cornell Cooperative Extension Associations in these five counties: [Allegany](#), [Cattaraugus](#), [Chautauqua](#), [Erie](#), and [Steuben](#).

Thank you Don Wild from Wild Acres Family Farm, Cliff Love from [Nutrien](#), Ben Scott from Advanced Dairy Services and Bradley Griffith from [Growmark FS, LLC](#) for sponsoring this Weekly Update.

It's Here: Beef x Dairy FREE Webinar Series & Recording

As demand for beef increases, the use of beef semen in dairy herds continues to grow. Join us on April 19th and 20th (Wednesday and Thursday) from 6:00-7:30 PM as we explore the intersection of beef and dairy farming. **[REGISTER HERE](#)**

Benefits of Estrus Synchronization and Artificial Insemination

Synching cattle to be on the same estrus cycle can tighten calving windows, decrease labor spent on heat detection and breeding, and can result in increased profit potential.

There's Still Time – NY Farm Labor Survey

Farm employers, share your voice through the [NY Farm Labor in Transition Survey](#). This takes about 20 minutes and all data is kept confidential and reported on a group basis by Cornell Ag Workforce Development.

Making Cover Crops Work in the Northeast: Termination Strategies For Success

To make cover crops a successful part of crop rotation, especially in the Northeast, it is important to be creative and adaptable. Cover cropping works the best when it's not just an afterthought.
