06.29.2023 Updates from Cornell Cooperative Extension's SWNY Dairy, Livestock, and Field Crops Program

A partnership between [Cornell University](#) and the Cornell Cooperative Extension Associations in these five counties: [Allegany](#), [Cattaraugus](#), [Chautauqua](#), [Erie](#), and [Steuben](#).

Thank you Patrick Coates from [Farm Credit East](#) and Bradley Griffith from [Growmark FS, LLC](#), for sponsoring this Weekly Update.

June's Dairy Market Watch – How Low Will They Go? By Katelyn Walley-Stoll

We saw a big decline in Class III/Protein prices this past month, and it looks like prices will continue to decline across the board as schools pause their orders into the summer season.

Is it Safe to Eat? Inspecting Poultry for Wholesomeness During Processing

When processing poultry under the 1,000 bird exemption, it's important to make sure that the meat is safe to eat. There are some disease processes and conditions that render parts, organs, or even whole birds unconsumable. This article shares what is OK to leave and what should be removed.

Shielding Grazing Dairy Cows From Heat Stress: Effective Strategies For Farm Management And Cow Welfare: Prioritizing shade, ample water access, and thoughtful management practices are crucial for protecting grazing dairy cows from heat stress, promoting their well-being and productivity during hot summer periods.
