## 12.14.2023 Updates from Cornell Cooperative Extension's SWNY Dairy, Livestock, and Field Crops Program

A partnership between [Cornell University](#) and the Cornell Cooperative Extension Associations in these five counties: [Allegany](#), [Cattaraugus](#), [Chautauqua](#), [Erie](#), and [Steuben](#).

***Thank you Don Wild from Wild Acres Family Farm and Amelia Parseghian from [NY FarmNet](#) for sponsoring this Weekly Update.***

### **Register today for the Whole-Farm Efficiency Webinar Series.**

Join PRO-DAIRY and CCE for this 10-week webinar series to explore the latest information on optimizing different aspects of dairy farming. Our kick-off session will be on January 9th at noon, and all webinars will be available for later watching when you register. [Register once for all webinars here.](#)

### **New York Certified Organic (NYCO) Dairy and Field Crop Meetings**

Pre-register for the upcoming dairy and field crop NYCO meetings today! Meetings are being held on January 9<sup>th</sup> and February 13<sup>th</sup>. Join local farmers, researchers, and industry leaders on topics such as interseeding, new no-till methods, and streamlining economics of dairy operations.

### **November Dairy Market Watch Available**

As we head into the end of 2023, we will continue to see rising milk prices as explored in November's Dairy Market Watch by Katelyn Walley – An educational newsletter to help keep dairy producers informed of industry trends and market data.

### **Cattle Injection Tips, by Amy Barkley**

Giving injections of vitamins, vaccinations, dewormers, and antibiotics is a scientific process. Following label instructions, giving injections in the "injection triangle", and opting for sub-cutaneous (sub Q) injections reduces the risk of muscle lesions and trim loss.
