05.08.2025 Updates from Cornell Cooperative Extension's SWNY Dairy, Livestock, and Field Crops Program

A partnership between [Cornell University](#) and the Cornell Cooperative Extension Associations in these five counties: [Allegany](#), [Cattaraugus](#), [Chautauqua](#), [Erie](#), and [Steuben](#).

Thank you ***Patrick Coates from [Farm Credit East](#) and Darleen Krisher-Meehan from [Country Crossroads Feed and Seed](#)*** for sponsoring this Weekly Update.

Planning for Immigration Enforcement At Your Farm

Join Cornell Agricultural Workforce Development on Tuesday, May 20th at 12 PM EDT for our next Virtual Office Hour: Planning for Immigration Enforcement at Your Farm. Ramped-up immigration enforcement is spreading fear and resulting in family and workforce disruptions across the farm landscape. Farms and employees should take action by making a plan for what to do in case of an immigration enforcement action at your farm. Planning is critical to avoid the worst outcomes. Learn about available resources and hear from the experience of crisis support leaders!

Ag Safety and Health Springtime Preparations

Spring is one of the busiest times of the year on a farm. Even if things are busy, keep health and safety to the forefront of what you do.

Share Your Thoughts on Field Crop Finds

Are you enjoying Field Crop Finds? Let us know with our 30-second survey. We appreciate your feedback!

Coccidia in Small Ruminants, By Amy Barkley

While coccidia is a common financially damaging parasite in small ruminants, early identification and environmental management can help reduce its effects.

NY Dairy Integrated Pest Management Survey - [CLICK HERE TO FILL OUT](#)

Cornell ENTOM 4440 Integrated Pest Management students are conducting a survey for their final class project. The objective is to identify willingness of upstate New York dairy farmers to use integrated pest management systems on their farms.
