POST Herbicide Application During Hot Weather

This week is bringing us plenty of heat, bringing in questions about POST herbicide applications. Check out these tips for an impactful herbicide application in soybeans with elevated temperatures.

USDA Meat and Poultry Processing Expansion Grant Program Accepting Applicants!

This is the 4th round of this federal program, which is open to very small, small, and intermediate-sized meat and poultry processors across the US. Funding is available for both processing expansion projects and simplified equipment-only projects. The application deadline is August 7, 2026.

The Rise of Herbicide Resistant Weeds

The introduction of resistant crop traits helped revolutionize modern agriculture but has caused a large reliance on a single, or relatively few modes of actions. This has developed selection pressure on weed populations, leading to an increase in herbicide resistant-weeds. [Click here](#) to learn more about the status of herbicide-resistant weeds in NYS.

Watch for Water Rivalries as Heat Ratchets Up - Hoard's Dairyman

We can be so focused on heat abatement strategies with ventilation and misters that sometimes we can miss the big one of water availability. This short article explores the behavior changes of cows around water availability.
