8.13.2026 Updates from Cornell Cooperative Extension's SWNY Dairy, Livestock & Field Crops Program

A partnership between [Cornell University](#) and the Cornell Cooperative Extension Associations in these five counties:
[Allegany](#), [Cattaraugus](#), [Chautauqua](#), [Erie](#), and [Steuben](#).

Thank you **Cliff Love from VM Agritech**, **Joseph Kwilos from Timac-AGRO** and **Patrick Coates from Farm Credit East** for sponsoring this Weekly Update.

Poultry Processing Workshop in Naples, NY on Thursday, September 17th, 5:30pm – 8:30pm

This program is one of four statewide roadshow stops, offering farmers a full poultry processing experience. The class will teach skills that build confidence, reduce costs, and strengthen your farm's independence. This hands-on workshop gives farmers the chance to process a bird from start to finish, learning every step of the workflow used by small farms across the state.

Does Fungicide Application in Corn Pay?

With reports of foliar disease coming in, the fungicide question remains. Check out this article for factors that impact ROI on a fungicide application.

When New Tech Starts Getting Old: Data Fatigue

Data fatigue is mental exhaustion that comes from excessive data and impairs management decisions. Reach out to our dairy specialist Katie Callero for a farm data consultation.

Upcoming Events
